

Today's tag: Thank You {ideal for a teacher}

<https://thecountrytouch.wordpress.com>

You will need: card stock (black and kraft), "thank you" and "to/from" stamps, white ink, powder tool, dies or cutting tool of choice, small hole punch, ribbon/twine, any extra embellishments. ***Please note:** the card stock cutting measurements are based on the die I used for cutting the black card stock but this tag can be whatever size you want to make it.

- 1) Cut the black card stock to measure 2 1/4" x 3 1/2".
- 2) Cut the kraft card stock to measure 2 1/2" x 3 3/4".
- 3) Adhere the black card stock to the kraft leaving equal borders on all four sides.
- 4) Using the powder tool, rub it over the black card stock to resemble a chalk board.

- 5) Stamp your chosen images on the front and "to/from" on the back.
- 6) I added a punched card stock apple in one corner and covered it with Glossy Accents.
- 7) Punch a small hole in the top left corner for threading through the hanger.
